

508/7 CHESTER STREET · NEWSTEAD · QLD 4006

\$1.01m to \$1.1m. On

today's evidence.

The Chester tower hasn't had a two-bed sale in almost four months. In the Ella tower, **506, on the same level as 508, sold for \$1,090,000 in July**, and comparable Newstead two-beds have sold between \$915,000 and \$1,150,000 since August. This page sets out those sales, my appraisal, and the market this spring.

01

No two-bed sale in the Chester tower since 908.

The last two-bedroom sale at 7 Chester Street was 908, in late May. Since then the best guide in the scheme is 506 in the Ella tower, on the same level as 508, at \$1,090,000. The shaded band is my appraisal for 508.

CHESTER & ELLA · LEVEL 5 AND ABOVE

Two-bed, two-bath, one-car apartments. Domain building profile and Newstead sold listings, read 24 September 2026. Sale dates are as published. Podium-level sales in the scheme (levels 1–4) are left out because they don’t compare with 508’s outlook.

02

My appraisal for 508.

508 · LEVEL 5 \$1.01m– \$1.1m The bottom matches 1402 at \$1,010,000. The top is backed by 506/14 Ella, also on level 5, at \$1,090,000 in July.	NEWSTEAD, AUG–SEP 2026 \$915k–\$1.15m Comparable two-beds nearby. Four of the five sold between \$1,028,000 and \$1,150,000.

The appraisal is where the evidence sits. It is not where we aim.

If we take 508 to market, the goal is the highest price a buyer will pay, not a result inside this range. 904/14 Ella reached \$1,188,000 and 908 reached \$1,149,999. The range tells us what the market has already paid. The final price comes from competition.

THE AIM The highest price, not the range The range is the floor of our thinking, not a target. Every offer is measured against the best result we can get, not against the appraisal.	HOW PRICE GOES UP Buyers competing at the same time The strongest prices come when several qualified buyers want the same apartment at once. My job is to bring them together, then negotiate them against each other.	YOUR DECISION You decide when the price is right Nothing is accepted without your agreement. You see every offer and every counter-offer, and the decision to sell stays with you.

Brisbane has eased since May.

Brisbane units are still up 13.2% on a year ago, but values have eased since the May peak and fewer homes are selling. Buyers are more selective, and they compare every listing.

Sales data is drawn from public records as published by Domain and from the Cotality Home Value Index (September 2026 release, results to 31 August 2026), and is believed accurate at 24 September 2026. Past sale results are not a guarantee of future performance. **The appraisal is the agent's opinion of the likely selling range, based on the comparable sales shown. It is not a valuation, and the final price depends on the market at the time of sale.**
